GRAZING POLICY  
TO BE RETAINED

Foresters in Convention Decide  
That Present Customs Shall  
Be Continued.

(Special to The Herald-Republican.)  
Ogden, Oct. 27.—The business of the first convention of the officers of the grazing department of the national forest service is moving along nicely and Chief Potter feels that much good is coming from the deliberations. This is the closing period of the grazing season in the forests, and the men who are in attendance at the convention are filled with valuable information. This is the first convention of its kind in the history of the forest department.

By practically unanimous vote of the members present at this morning's meeting, the question of "The Grazing Scales and Regulations" Limits, involving allotments and the protection of the little stock owner, was acted upon. The vote was 15 to 2 in favor of continuing the present policy.

This means that the officers of the grazing department have decided that the small cattle and sheep interests must not be crushed by the large ones, and that equity must prevail in the making of allotments. Also that the bona fide resident, though he be a new comer in a locality, must be given an equal show.

Thursday's program is as follows:

"Losses of Stock from Disease and Parasitic Plants," J. H. Hutton of San Francisco.

"Transfers of Grazing Privileges," F. W. Reed of Ogden.

"Grazing Fees," W. C. Barnes of Washington, D. C.

"Use of Private Lands," Court D. B. of San Francisco.

"Range Restrictions," P. G. Redington of Missoula, Mont.

RATE HEARING TO  
COMMENCE TODAY

Salt Lake Railroad Men Ex-  
pected to Attend the Og-  
den Session.

(Special to The Herald-Republican.)  
Ogden, Oct. 27.—Members of the interstate commerce commission will be here today to listen to testimony in the hearing of the case brought by the Ogden fair association, against the Union Pacific, Southern Pacific and Oregon Short Line railroads, for the purpose of getting better passenger rates to the fair held annually at Ogden.

The local people have been trying to get the same rates that are given Salt Lake during the conference of the Latter-day Saints. The matter has been taken up on several occasions by the Oregon Short Line without results.

It is thought that there will be a considerable attendance on the part of Salt Lake, including the representatives of the railroads interested, and probably the Commercial Club traffic bureau representatives. The hearing is expected to last only one day, as the members of the interstate commission are on their way from Reno, Nev., to Salt Lake to listen to the arguments of the counsel in the freight rates case, which is the real club traffic bureau against the railroads, which takes place Friday.

## WILL SPEND MILLIONS.

Traffic on New York Central Justifies Expenditures.

New York, Oct. 27.—President W. C. Bryant of the New York Central & Hudson River railroad announced today that the management had entered upon a campaign of extraordinary expenditures to meet extraordinary traffic demands.

The company has placed contracts in the last few days, he said, for \$25,000,000 worth of new locomotives, passenger and freight cars, and intends to spend \$60,000,000 more—\$85,000,000 in all—in reducing grades, straightening curves and laying new rails, exclusive of \$50,000,000 terminal improvements in New York.

"The traffic records for the months of September and October up to date have exceeded anything in the company's history," he said.

"The previous high water mark was for the first three quarters of 1907, just before the panic. Every available car and engine on the system is in service. My latest report shows that 94 per cent of our freight cars are in use."

To Stop a Cough In  
a Hurry.

With this recipe you can make a pint of cough remedy at home in five minutes. A few doses usually conquer the most obstinate cough. Simple as it is, no better remedy can be had at any price.

Put 2 1/2 oz. of Pinex (fifty cents' worth) in a clean pint bottle, and fill up with Granulated Sugar Syrup, made as follows: Take a pint of granulated sugar, add a pint of warm water and stir for 2 minutes. Take a teaspoonful every one, two or three hours. The taste is very pleasant—children take it willingly. Splendid, too, for colds, chest pains, whooping cough, bronchitis, etc.

Granulated Sugar makes the best syrup. Pinex, as you probably know, is the most valuable concentrated compound known—Norway White Pine Extract. None of the weaker pine preparations will take its place. If your druggist hasn't the real Pinex, he can easily get it for you.

Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup.

## TROUBLE WITH HIS SON

Misunderstanding With  
His Wife.

Bailey said he and his son had been drinking together in a saloon and had some trouble there, which later was renewed outside of the house, where the stabbing occurred. He said both were under the influence of liquor and did not know what they were doing.

Bailey pleaded guilty yesterday to assault and battery and was fined \$50, which he paid.

## AGRICULTURAL COLLEGE.

(Special to The Herald-Republican.)

UNABLE TO KEEP UP  
WITH PROCESSION

President Compelled to Leave  
Governors and Congress-  
men Behind.

Helena, Ark., Oct. 27.—President Taft's river schedule went all to pieces today owing to the inability of the vessels following his flagship, the Olney, to maintain the designated speed. The President tried to remain with the fleet as far as possible and delayed his arrival in Memphis three hours today in order that he could carry the twenty-six governors and the 117 congressmen, as well as other vessels carrying delegates to the waterways convention in New Orleans, might land at the same time. Leaving Memphis at 10 a. m. and a half late this afternoon, the Olney had to press forward at top speed in order to reach here at 8 p. m., two hours behind the scheduled time. Leaving here near three hours late tonight, the President will not reach Vicksburg until 6 o'clock or later tomorrow night, that being his next stop. He will make that city at 6 p. m. The President will have to leave the other vessels behind.

It had been intended that the President should be welcomed once more to Arkansas by Governor Bouslog, but the governor's boat was an hour behind the President, and the introductory speech was made by Mayor Martin.

Little Rock, Ark., Oct. 27.—The steamer Gray Eagle of the presidential fleet, carrying a party of governors, arrived here yesterday morning. The delegations aboard the stranded boat were transferred to the steamer Illinois and the voyage down the river continued.

## LOSS REACHES MILLIONS

Poor in the Flooded District of Mexico Now in Danger of Starvation.

Mexico City, Oct. 27.—A dispatch from San Juan Bautista says the Grigilla river there comes rushing down, and the condition of the poor has reached the starvation stage, owing to the impossibility of sending out provisions. The total damage will exceed \$5,000,000.

The towns of Tenosique, Usumacinta, Estapilla, Corro and Arnen are all flooded, and the inhabitants have abandoned their homes. Crops are a total loss in this section. The maximum height of the water in Cerro and Carmen was 22 inches, while in Pomerania the water stood 6 1/2 feet in the main streets.

Trees and driftwood floated through villages, destroying adobe houses and forcing families into the water.

Many houses have been robbed while the occupants are away.

In San Juan Bautista the Barrios of Concepcion and of Santa Cruz are completely inundated.

## ROOSEVELT'S BIRTHDAY.

Former President Has Reached the  
Fifty-First Milestone.

Oyster Bay, N. Y., Oct. 27.—Some of the Oyster Bay neighbors who keep birthday books were reminded that their distinguished fellow townsman Theodore Roosevelt, is just 51 years old today. In a recent magazine article he speaks of himself as "an elderly gentleman, whose varied past includes rheumatism."

President Taft was 52 years old on Sept. 15.

Mr. Roosevelt's friends here took no formal note of the day, and sent no congratulatory messages to Africa.

CONGRESS WOULD  
NOT CHANGE NAME

Majority of Farmers in the  
Arid Belt Favor the  
Word "Dry."

Billings, Mont., Oct. 27.—The feature of the fourth and fifth sessions of the fourth dry farming congress was the speech of Louis W. Hill, president of the Great Northern railway. His talk this afternoon was devoted to a showing of the results of the dry farming movement in Montana, and he proved by his figures, shown upon charts, that the state of Montana is now to be classed as an agricultural state.

Mr. Hill had a little bad luck because he wanted the name of the congress changed from "dry farming" to something that would be less suggestive of barren land. In this he was not entirely alone, but when the vote was taken it proved that there were too many against him.

## NOW ON STRIKE

Millions of Stomachs Refuse  
to do Their Work Properly

All over this broad land millions of stomach owners are being held in humiliating subjection just because they are so stubborn that they will not accept a fair, square and broad minded offer.

Life is short for all of us; it will be shorter for those who let their stomachs go from bad to worse.

F. C. Schramm has a famous prescription called MI-O-NA and he believes so thoroughly in its remarkable curative power that he says to every owner of a distressed stomach that he will guarantee MI-O-NA tablets to cure acute or chronic indigestion and all stomach ailments or money back, and the price is only 50 cents a box.

And still there are stubborn people right in Salt Lake who won't accept this offer, but continue to suffer from gas on stomach, belching of sour food, stomach pains, foul breath, dizziness, biliousness and headaches just because—just because—that's all; there is no other reason.

MI-O-NA tablets stop dyspeptic agony in five minutes; they cure obstinate cases of indigestion and turn the old stomach into a new one in a few weeks—or money back.

DEPOSED SECRETARY IS  
BACK AT HIS OLD DESK

Philip T. Ayres Goes to Work in  
Office of the City  
Engineer.

Philip T. Ayres is again chief clerk in the city engineer's office, after a brief vacation as secretary of the Republican party committee. The appointment of Ayres as secretary caused no end of criticism among the younger members of the party, and they charged him with support to the powers that be. It was understood that the young secretary was a Lippman man, and he was taken in and put in charge as secretary, with Darn as chairman, and Ayres was relegated to the rear. Ayres made numerous friends at headquarters, but he is out of it and is now back at work in the city engineer's office. He was before he was "set aside" as secretary in the anti-convention days.

ROTUND SALOONKEEPER  
IS NOT DOLLY DIMPLES

Martin Mulvey Gets Indignant and  
Refers Questioner to the  
Proper Parties.

Martin E. Mulvey was accosted on the street yesterday by a man who said, "Pardon me, but you are the mysterious Dolly Dimples of the Daily and Sunday Herald-Republican." The rotund saloonkeeper candidate indignantly denied the assertion, but the man who accosted him in the street said he was the mysterious stranger who would give \$500 for identification.

It was not until Mulvey explained that he was only the boss gambler of Salt Lake and proprietor of two saloons which do not have to obey the law, that the rotund saloonkeeper's association in Salt Lake, Mulvey further explained that he was the man who used to be counted man from the Fifth precinct until he got sore and resigned before his last term was finished.

"If you think I'm Dolly Dimples, just ask George Sheets, chief of detectives, or ask Jim Pennington," he said.
